EXPERIENCE

Communications and Remote Control Specialist

ATI

 Sept 2024 – Ongoing  23 and N, Vedado, Habana, Cuba

- Together with a group of specialists and technicians, my work in the company consists of maintaining, advising, managing and providing solutions to problems with UNE's voice and video systems, as well as ruling on any new implementation solution.
- Support, advise and provide solutions in any other field of the company where my knowledge and experience is useful.

Odoo Developer

Innova

 Feb 23 – Mar 23, 2025

- It was a short-term project with colleagues at Innova, a small company created to meet the specific needs of the programming and development market in Cuba. They hired me to meet their development needs on the Odoo platform.

Freelancer

Web. dev

 Feb 2024-Ongoing

- As an independent developer, I have a short but fruitful career, working on web development projects and personal projects to expand my knowledge. I have developed websites for private clients, guaranteeing the highest professionalism and dedication possible.

PROJECTS

Gstreamer Application

- A project aimed to design an application for managing templates to facilitate multimedia transmission using the Gstreamer platform. For its development, were used free development environments, as well as Gstreamer, which is a multimedia framework dedicated to this field, and the Python programming language was used. The final result was focused on achieving the simplification of work with Gstreamer when transmitting video, audio and subtitle files with the greatest possible efficiency, in real time for video protection and reducing the installation costs of video surveillance technologies, using single board computers(Raspeberry Pi 3).

Odoo-Autopartes

- In this project, I was responsible for developing and adapting an online store, warehouses, point of sale, website, and other add-ons, using my Odoo knowledge, for a private client called Autopartes who needed a reliable administration and management system for their business.

EDUCATION

Middle School

ESBU "Coronel Juan Delgado"

 Sept 2012 – Jun 2015

High School

IPVCE "Mártires de Humboldt 7"

 Sept 2015 – May 2018

University

Universidad Tecnológica de la Habana "José Antonio Echevarría" (CUJAE)

 Sept 2019 – Jul 2024

Thesis title: "Diseño e implementación de un sistema de plantillas para Sistemas Multimedia basadas en Gstreamer"

MY LIVE PHILOSOPHY

"Always keep growing"

MOST PROUD OF

Graduated from engineering

Graduating in Telecommunications and Electronics Engineering is a source of personal pride more than anything and a test of character and personality.

My family and friends

They are a source of pride for me for being by my side and always helping me throughout my life.
